Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Gabany (4964805).

Gabany (Figures 1-1-6) shows a right-angle connector having an electrically conductive body 2, 5 with a longitudinal section with a cylindrical hollow and a transverse section with four legs 14-17; an electrical conductive pin 3 with a portion located in the hollow and a second portion extending outwardly from the transverse section and parallel to the legs; and an insulating body 4 surrounding the conductive member and the pin.

Conclusion
